MOBELTOOLS

MD - 090 MINI EDGEBANDING SLITTING MACHINE

MACHINE FEATURES

- This machine is designed for slitting Thermoplastic foils (PVC, ABS, PP, PET, PS and PMMA), Post Impregnated Finish Foils and Melamine Edgebanding into the desired width.
- The master rolls are narrow (Max 100mm) and the usage is so practical.
- Free unloader socket is 6" special design that provides practical insertion and removal of winding shaft.
- 8" shaft is optional.
- There is digital metering system that measures the length of the rolls.
- Machine has a ruler that provides the quick and accurate adjusting the width of the blades.
- The control buttons are embedded in the body of the machine for the better protection so it is difficult to be damaged.
- Provides high production capacities without covering wide floor covering.
- Designed for maximum safety.

Complementary conditions.

- Pre-installation: The machine will be moved to the work area and the electrical connections will be made by the client.
- Installation: The installation of the machine will be carried out by the customer's technicians in the customer's factory.
- Warranty: 2 years
