MOBELTOOLS

MS - 090 STANDART REWINDING MACHINE

MACHINE FEATURES

This machine is designed to rewind Thermoplastic (PVC, ABS, PP, PET, PS and PMMA) and Melamine Edgebanding into the shorter rolls. The master rolls are standart size edgeband rolls. On the other side, using the electronic metrage adjustment system, any length can be obtained with zero tolerance. When the other side of the master roll reach to the desired length, the machine stops automatically. 4" and 8" shaft diameters are optionals. Digital metering system that measures the length of the rolls. Provides high production capacities and designed for maximum safety.

Complementary conditions.

- Pre-installation: The machine will be moved to the work area and the electrical connections will be made by the client.
- Installation: The installation of the machine will be carried out by the customer's technicians in the customer's factory.
- Warranty: 2 years
